

Total control, pure comfort and complete security

With the Berner Secure Mobile App you can operate your Berner wireless products through any piece of mobile internet compatible equipment. You need never wonder again if your garage door is actually closed. Control your door setting from anywhere in the world and open the garage door for your kids from the office so that they can put their bicycles away securely.

Self-explanatory symbols - intuitive user interface

Start-up: Simple QR code scan onto Berner-Box
The first steps are very simple. The Berner-Box can easily be set up though QR scan or by entering the code manually. Navigate the intuitive menu and then fix location and settings at the next stage.

Select favourites
Whether it's only the garage door, lights or for all functions - you decide which functions you use the most and add these to your favourites. Add new items or delete individual items just as easily.

What is a scenario?
When creating your personal scenarios, specific settings are simultaneously or sequentially combined. Would you like to control your yard gate, garage door or even your lights at the touch of a button? No problem, set the whole sequence once, save and you're ready to go.

The new Berner Secure Mobile App

Intelligent automation – anywhere and anytime

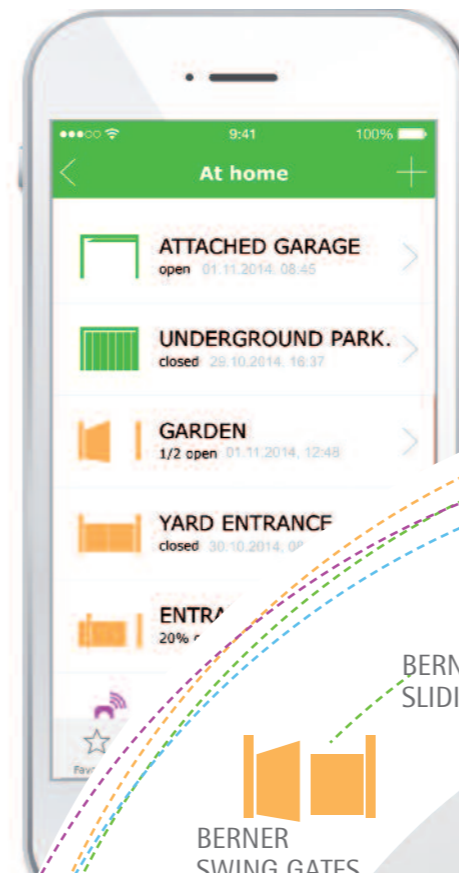

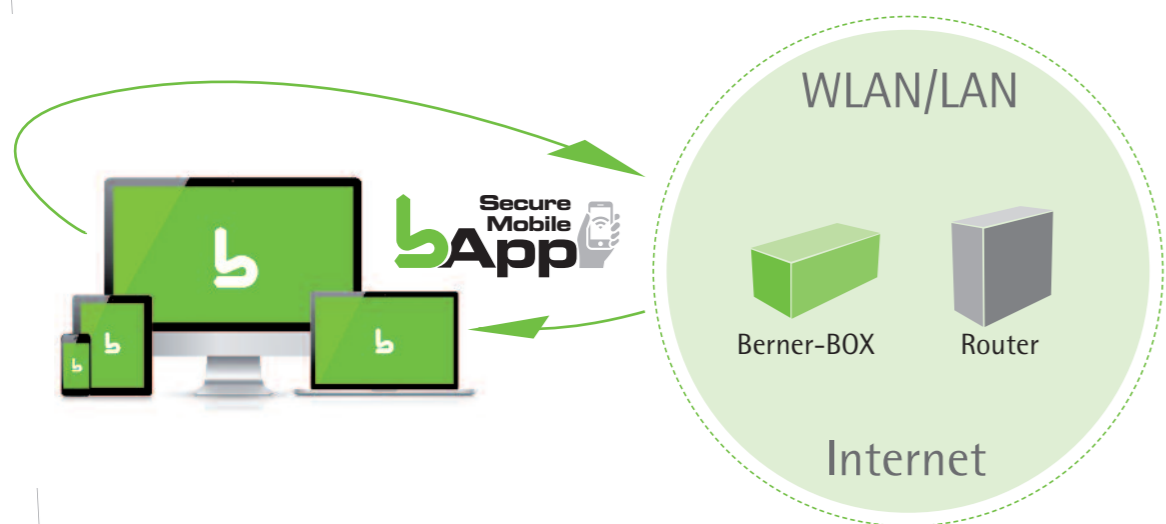

Issue 1 2/2015

Intelligent automation with the Berner Secure Mobile App

With the Berner Secure Mobile App you can operate wireless Berner products simply and intuitively by Smart Phone, Tablet or PC (app compatible). Convenient and really easy time and location independent control of entrance doors, lighting and much more at the single touch of a button.

Easy to install and ready for immediate use

At the core is the intelligent Berner-Box, the central control for Berner wireless products. Automatic, fast installation: Simply connect the Berner-Box to your router through a network cable or WLAN. Perform single equipment configuration over the Secure Mobile App using your PC (app compatible), smartphone or tablet.

Unique user interface with all devices with self-explanatory symbols and intuitive operation.

The Berner Secure Mobile App - you're always at home even when you're on the road

Connect really easily to the various Berner wireless products within a matter of seconds using your smartphone or tablet and thereby control complete scenarios at the touch of a button. The Berner app is intended for multiple users. Status reports about the gate position and much more are displayed on the screen.
